INDICATIONS: For Tennessee and the Ohio valley, rising followed by falling barometer, cool northwesterly winds, backing to warmer southwesterly and occasional rains, succeeded by generally clear weather.

A REMOR having gained currency that there had been four cases of yellow fever in New Orleans, the B. and O. of Health, after investigation, pronounced the rumor unfounded.

EVERY citizen of the United States owes paramount allegiance to the Government of the United States, and not to that of any State.

THERE was a Democratic rally in Cincinnati last Saturday night, in the interest of Thurman as a candidate for Governor of Ohio.

A FEW years ago there was a great outcry made by Democrats against President Grant, because he appointed some of his relatives to office, but now a large number of Democratic Senators have secured fat offices for their sons.

In their persistent attacks upon the public credit, and their disposition to revive the dangerous doctrine of State Rights, the Democrats in Congress are rendering the Republican party valuable service. It means a Republican President in 1880.

THE Nashville Banner speaks of Senator Thurman as the favorite of the South for the Presidency, but does not think he ought to accept the race for Governor in Ohio. It says Tilden is a great trickster, and might not wish for Thurman's election as Governor, fearing it might enhance his prospects for the Presidential nomination. The Banner suggests the way out of trouble—that is nominate "Bill Allen." All right, bring on your "fog-horn."

THE Revenue Collectors.

Col. J. M. Melton, the newly appointed United States Internal Revenue Collector for the Knoxville District, who is to succeed Gen. Jos. A. Cooper, expects, as we learn, to have his bond and everything up in proper shape to relieve Gen. Cooper, and take charge of the office about the first of July. The business will still be carried on by the old force until that time.

Internal Revenue Collections.

The following is an abstract of the collections made by Gen. Jos. A. Cooper, United States Internal Revenue Collector for this District, for the month ending May 31st, 1879:

## XLVI CONGRESS.

SENATE.

WASHINGTON, D. C., June 2.

Mr. McDonald being absent, the consideration of his resolution was postponed.

Mr. Blaine, of Maine, gave notice of the proposed amendment, to also refer to the Committee on Frauds the facts in regard to the Southern Districts, referred to by him on Thursday last.

Mr. Edmunds called attention to what he alleged was an unfair way in which ex parte charges were printed for public information by the Wallace Committee so as to be mistaken for established facts. Mr. Wallace defended the course of the committee, and a debate ensued, participated in by Senators Edmunds, Dawes, Thurman and Blaine.

Mr. Thurman said one-sided statements were also made public as evidence by the Ku Klux Committee in the South. Portions of the testimony bearing against the Democrats found their way into print and not the rest. He favored making all the testimony public and letting the people judge for themselves. The morning hour expired, and Mr. McDonald's resolution went over.

House bill to amend the act making appropriations for the construction of certain works on the Great Kanawha and Kentucky Rivers, and authorizing the Secretary of War to use part of the appropriations in the purchase of sites, was then considered and passed, after which the Senate adjourned.

## HOUSE.

Among the bills introduced and referred was one by Mr. Springer, of Illinois, prohibiting any soldier stationed within two miles of any place where a special or general election of representative in Congress is being held from leaving his barracks for any purpose except that of relieving guard or casting his vote on the day of election.

This bill provides that on the day appointed for a general or special election of Representatives in Congress, no soldier stationed within two miles of any polling place shall be allowed to go out of the barracks except to mount or relieve the guard, or to vote, when he shall return immediately.

Mr. Roberts, of Louisiana, Chairman of the Committee on Mississippi Levees, moved to suspend the rules and pass the bill for the appointment of the Mississippi River Commission for the improvement of said river from the Head of the Passes near its mouth to its head waters, passed by a vote of 120 to 20. It provides for the appointment of five Commissioners, three from the engineer corps and two from civil life, who shall take into consideration and mature plans for the improvement of the Mississippi River and report the same to Congress. One hundred and seventy-five thousand dollars is appropriated to meet the expenses of the Commission. A bill also passed appropriating \$20,000 to provide for the representation of the United States at the Austrian Exhibition, in 1879-'80.

The House then adjourned.

## NEW YORK.

NEW YORK, June 2.—There were no new developments to-day in the Manhattan Bank burglary case. The hearing will go on in the Jefferson Market Court this afternoon. The police are confident of the conviction of Hope, W. Dobbs, Slevin and Kelley, and the speedy arrest of other parties known to be in the job.

## The Finest and Most Natural.

The finest, purest, and best flavors for cakes, puddings, pastry, &amp;c., are Dr. Price's Special Flavoring Extracts. In this age of adulteration it is gratifying to find one to stick to the old path of honesty, and consumers owe it to themselves to patronize such efforts.

## WASHINGTON.

WASHINGTON, June 2.—Under the call of States many bills are being introduced and referred. Among them are the following: By Mr. Wise, of Pennsylvania, for the execution of promissory notes, bonds and mortgages, and making it unlawful to exact more than 5 per cent. interest for the loan of money. By Mr. Sanford, of Alabama, prohibiting the funding of United States bonds payable in currency into coin bonds, and by Mr. Lowe, of Alabama, to substitute legal tender currency for National Bank currency.

The President has approved the bill to prevent the introduction of contagious and infectious diseases into the United States.

## MARYLAND.

SNOW HILL, June 2.—In the trial of Miss Duer to-day, Judge Irvin announced the ruling of the court on the question before them. He said it was unnecessary, and perhaps not proper, for the court to indicate in what way the testimony adduced had influenced their minds differently from the way it had impressed the counsel. The court, after full consideration, thinks that all the declarations offered in the evidence made by deceased during the last week of her sickness must be admitted; all conditions necessary to make them admissible concurred in. Judging from the evidence before them in reference to declarations anterior to that time, the court is not satisfied, and, therefore, will not receive them. Mrs. George Truitt, being called and not answering, Mr. Page said that under the ruling of the court James Hearne, deceased's father, and Mrs. Truitt were the only witnesses to the dying declarations the State had, and he would call Mr. Hearne on the stand, reserving the right to call Mrs. Truitt, who was sick in bed to-day.

## FLORIDA.

JACKSONVILLE, May 31.—The decision of Judge Bradley in the cases of the Western North Carolina Railroad Company against the Florida Central and Jacksonville, Pensacola and Mobile Railroad Company and others, and the case of J. Fred. Shuette and others against the Florida Central and Jacksonville, Pensacola and Mobile Railroad Company and others, which are tried together has just been delivered. The Judge holds that the lien of the so-called Dutch bondholders is a prior lien to that of the North Carolina Company, whose funds were fraudulently invested in Florida roads, and dismisses the North Carolina Company's bills. He grants a lien in favor of the Dutch bondholders and against the Florida Central for \$11,700, and interest for about nine years against the Jacksonville, Pensacola and Mobile for about \$2,750,000, with like interest. From this decision the North Carolina Company, and Florida Central, and Jacksonville, Pensacola and Mobile Companies of Florida have prayed an appeal. Decrees ordering the sale of the roads are in preparation. The rights of L. Gibbs to the road from Quincy to Chattahoochee, 25 miles, are reserved for further investigation.

## LOUISIANA.

SHREVEPORT, June 2.—A fire broke out at 1 o'clock this morning in the grocery and bakery of C. P. Thénard, on Levee street, which entirely destroyed three two-story brick stores and damaged three adjoining. The occupants were, Hall & Dingle, Abel Dreyfus, J. H. Stephens, J. C. Soape, Grigg & Ford, and Hardin & Soney. Loss \$65,000; insurance \$52,000.

## MINOR DISPATCHES.

OTTUMWA, IOWA, June 2.—Gen. Jas. Shields, late United States Senator from Missouri, died suddenly in this city last night.

ST. PETERSBURG, June 2.—Four revolutionists, one of whom was a Prussian subject, and one an unknown man, believed to have been a conspirator against Antonof, were hanged at Kieff on the 26th of May.

## Workmen.

Before you begin your heavy spring work after a winter of relaxation, your system needs cleansing and strengthening to prevent an attack of Ague, Bilious or Spring Fever, or some other Spring sickness that will unfit you for a season's work. You will save time, much sickness and great expense if you will use one bottle of Hop Bitters in your family this month. Don't wait. See other columns.

## ANOTHER EIGHT GOOSE EGGS.

The "Daily Red" Wins the Game by a Score of 11-6.

As announced, the first game of the second series came off Saturday afternoon on the Knoxville grounds, and as we predicted, proved an interesting one. Hunt won the toss and sent the Knoxville to the bat, whereupon they got in six runs—the only ones they made during the game. A full score of the points of the game is given below, and the fielding was so perfect that to give all the good plays would consume more space than we have to spare. We will mention, however, Fuller's long running catch, McMillan's catch over his head, and Walker's beautiful foul ball catch, on the side of the Reds, and Douglass in his hot liner catch, Cooper's long fly, and Compton's splendid foul fly catch with one hand, on the side of the Knoxville. At the bat and in the field Hughes won all the laurels, making some fine stops and catches, and being the only man on either side to make a "three bagger."

## One Week in Wall Street.

October 7th, 1878, Western Union Telegraph stock sold at the New York Stock Exchange for 98½ per share; October 14th, 1878, it sold at 94½, a fluctuation of 9½ per cent. In seven days; 12-500 shares sold on a margin of one per cent required an actual capital of \$12,500. The same stock delivered at 94½ gave a profit of 9½ per cent. On the stock or \$94½ per 100 shares. On the whole 12,500 the actual profit was \$117,187.50 or 9½ times the capital used, in one week. This is a single case taken from the official record of the Stock Exchange, and shows how money is made so rapidly in stocks. Few people, however, have the necessary cash to put up in order to realize such immense profits as these, but capital to any amount from \$10 to \$50,000 can be used with equal success by the new combination system of operating in stocks which Messrs. Lawrence & Co., Bankers, New York, have established. By this method of pooling thousands of orders in various sums and operating them as one immense capital, shareholders realize large profits which are divided *pro rata* monthly. New circular contains two unerring rules for success, and full information, so that any one can operate profitably. Stocks and Bonds wanted. Government Bonds supplied. The only cause tried was that of Thos. Bird, administrator, vs. R. A. J. Bull, and a verdict rendered for plaintiff for \$13.45.

In the three cases of Wm. Staples vs. C. C. Smith et al.; judgment was rendered for plaintiff.

The call of the docket was proceeded with and gone through on first call and a good way on the second, but there seemed to be nobody ready for trial and the causes were continued or passed over till a future day of the term.

Court adjourned till 8 o'clock this morning.

## Complexional Indications.

The complexion of persons whose digestion is out of order, who are bilious, or who lack vigor, always exhibits an unhealthy tint. It is by regulating the bodily organs and promoting digestion and assimilation, that the parchment hue indicative of ill health, is banished from the cheeks. To rectify the fault of a salivary complexion, use Hostetter's Stomach Bitter, an invigorant and alterative which removes those obstacles to renewed strength, physical comfort and personal attractiveness—an imperfect digestion and secretion, and a disordered condition of the bowels. Persistence in the use of this invigorant corrects the bile and tonic will surely result in renewed physical regularity and vigor, will tend to increase bodily substance, and cause the glow and clear color of health to return to the sallow, wasted cheek.

Walker, M. T. Atkins and others, charging among other things that said W. W.
